Commissioner for Patents

P.O. Box 1450

Alexandria, VA 22313-1450

**PETITION UNDER 37 C.F.R. § 1.181 TO  
WITHDRAW HOLDING OF ABANDONMENT**

1. This paper is in response to the Notice of Abandonment mailed on June 10, 2004. The Notice of Abandonment indicated that the present application is considered abandoned in view of Applicants' failure to timely file a reply to the Notice to Comply with Requirements for Patent Applications Containing Nucleotide Sequence and/or Amino Acid Sequence Disclosures ("Notice to Comply") mailed on February 14, 2002.
2. The undersigned asserts that a full search of the file jacket and docket records for the above-referenced application indicates that the Notice to Comply was never received by this office. Thus, no Notice to Comply was ever docketed for response.
3. Applicants therefore respectfully submit that any consideration of Abandonment of the present application is in error, and that such considerations be withdrawn.

4. The statements below are made as to the exact facts that are relied upon to establish the non-receipt of the Notice to Comply by the office of the Attorney of Record.

5. On October 5, 2000, Attorneys for Applicants filed a Request for a Nonprovisional Application under 37 C.F.R. § 1.53(b) and an unexecuted Combined Declaration and Power of Attorney instructing the Office to address all telephone calls and general correspondence to the undersigned at the address listed therein (same as below). A postcard listing the contents of the filing was also sent and was duly returned bearing a label affixed by the Office indicating an application number 09/679,740 and as having been received on 10/05/00.

6. A file was created according to the procedures outlined in the Declaration of Mr. Richard Tomlins (Exhibit A).

7. On June 5, 2001, Attorneys for Applicants filed a response to the Notice to File Missing Parts mailed January 12, 2001, including the Combined Declaration and Power of Attorney required by the January 12, 2001 Notice and Petition for a Three-Month Extension (along with the appropriate fee).

8. On September 14, 2001, Attorneys for Applicants filed a Response to a corrected Notice to File Missing Parts mailed July 17, 2001, including the sequence listing in paper format, computer readable form (CRF), and a statement in support of the CRF, as required by the July 17, 2001 corrected Notice.

9. On May 24, 2004, Attorneys for Applicants filed a status inquiry, including copies of the September 14, 2001 Response to corrected Notice to File Missing Parts.

10. A Notice of Abandonment was mailed on June 10, 2004, and received by Attorneys for Applicants on or about June 21, 2004.

11. In rendering a decision on this Petition, Attorneys for Applicants also request that the Commissioner consider the following sequence of events: a Notice to Comply provides two

months from the mailing date in which to file a response, for which extensions may be obtained for an additional five months. Therefore, the final deadline to respond to the Notice to Comply mailed on February 14, 2002 would have occurred on September 14, 2002. Presumably a Notice of Abandonment would have been received within several months thereafter. In the instant case, however, the Notice of Abandonment was only mailed June 10, 2004, almost twenty-one months after the final deadline for response had passed, and only after Attorneys for Applicants filed a status inquiry. The undersigned respectfully asserts that this time span represents an unusually long delay and supports Applicants' contention that the Notice to Comply was not received, and therefore could not be replied to in order to avoid abandonment.

12. Under the requirements set forth in 37 C.F.R. § 1.181, the following documents are submitted herewith in support of this Petition:

- 9.1 a declaration of Mr. Richard Tomlins, Patent Manager for the Offices of the Attorneys of Record (Exhibit A);
- 9.2 a true copy of the docket record for 15966-575B, as required by MPEP § 711.03(c), Part II (Exhibit B); and
- 9.3 a true copy of the mail log for the time period of February 12, 2002 to March 14, 2002 (Exhibit C).

13. No fees are believed due with the submission of this Petition. However, the Commissioner is hereby authorized to charge any necessary fees that may be due to Account No. 50-0311, Reference No. 15966-575B (Cura-75B).

U.S.A.N.: 09/679,740  
Prayaga *et al.*

14. Applicant respectfully requests that the notice of abandonment of this application be withdrawn. Should the Commissioner have any questions concerning this petition, he is invited to telephone the undersigned at the number provided.

Respectfully submitted,

**MAIL STOP PETITION**

Commissioner for Patents

P.O. Box 1450

Alexandria, VA 22313-1450

**DECLARATION OF RICHARD R. TOMLINS II UNDER 37 C.F.R. §1.68 IN SUPPORT  
OF RULE 181 PETITION TO WITHDRAW HOLDING OF ABANDONMENT**

I, Richard R. Tomlins II, hereby declare as follows:

1. My name is Richard R. Tomlins II, and I am the Manager of Operations-IP for the law firm of Mintz, Levin, Cohn, Ferris, Glovsky & Popeo P.C., with offices at One Financial Center, Boston, MA 02111. I make this Declaration based on personal knowledge and in support of the accompanying Request to Withdraw Notice of Abandonment in the above-identified application.
2. I have over 8 years of experience in U.S., PCT, and foreign patent procedures. I am currently responsible for implementing and overseeing the file room and docketing procedures in the Intellectual Property section within Mintz Levin. I am very familiar with these procedures and attest that they are functioning on a routine basis. Below is an outline of the procedures followed by the docketing and file room:
3. Attendant to its Intellectual Property Practice, Mintz Levin has implemented a filing and docketing system whereby files are created for each new matter opened with the USPTO. These

files are then assigned to one or more supervising and responsible attorneys. These files house the record of correspondence between the Office and the attorneys of record, and between the Applicant and the attorneys. For each application, Combined Declarations and Powers of Attorney specifically instruct that all correspondence be mailed to the Attorneys for Applicant. All outside mail, including Actions sent from the USPTO, is received in a central location. It is then date stamped, logged into a spreadsheet, and docketed into a central database ("CPI") shortly after receipt. The Action is subsequently forwarded to the responsible attorney or his/her secretary via hand. Weekly docket reports are prepared for each attorney listing the days on which various actions are due.

4. Upon filing a response to an Action from the USPTO, the attorney or his/her secretary concurrently forwards duplicate paperwork to the docketing department so that the Action for which a response was filed will be de-docketed from the date-due list.

5. On or about October 5, 2000, the procedures outlined above were followed in this instance and a file was created for the above identified patent application bearing Attorney Docket No. 15966-575B (Cura-75B). The information was also entered into the central computer database.

6. A full search of the mail, the spreadsheet, the file jacket for 15966-575B, and of the docket records indicates that Mintz Levin has never received a Notice to Comply in the above-identified application. The Action has never been entered on our central database and has never been included within the weekly docketing reports. No correspondence from the USPTO pertaining to this application has ever been docketed in our central database.

7. Pursuant to MPEP § 711.03(c), Part II, true copies of the docket record for the above-referenced application are enclosed for consideration. These copies show, under the heading "List of Actions", where the Notice to Comply mailed February 14, 2002 would have been entered and docketed had it been received.

8. All statements made of my own knowledge are true, and all statements made on information and belief are believed to be true. The statements made herein are made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.

Respectfully submitted,
